

2006-2007 School Improvement Plan Goals

Zahnaw Elementary:

Goal #1 The use of differentiated practice to modify and support exiting curriculum to target the various levels of student readiness will adequately improve performance in overall reading skills, including comprehension, writing, the use of technology, and social sciences.

Goal #2 The teaching and learning environment will provide a safe, secure, and positive learning environment for students that will adequately improve student behaviors including structured and unstructured time.

Rogers Elementary

Goal #1 Increasing the rigor of mathematics instruction will increase overall student performance.

Goal #2 Consistent implementation of PBIS (Positive Behavioral Interventions and Supports) model will improve overall student behavior and school climate

Goal #3 Applying best practices will improve overall reading comprehension and writing skills

Waterloo Junior High

Goal # 1 Grade Level Team will publish web sites

Goal # 2 Create Middle School reading and elective curriculum

Goal # 3 Writing School-wide Community Service Project Organizational Manual

Goal # 4 Support to improve academic success in the identified areas (Math and Reading)

Goal # 5 Each curricular area will develop and use a differentiated learning activity

Waterloo High School

Goal #1 WHS will raise reading scores through data based decision making processes

Goal #2 Improve technology applications and accessibility for all students.

Goal #3 Develop and implement programs which expand the role of WHS within the community

Goal #4 Improve the level of professionalism at WHS
